

## MATTEO THUN & PARTNERS YOUR HOSPITALITY PARTNER

### Individuality

It is essential for global hotel groups to create individualised concepts as they expand into line extensions. A personalised concept can solidify a brand's aesthetic profile as well as their company values. Matteo Thun & Partners specialises in creating long-lasting and individual hospitality concepts for each new project, building up a distinctive voice and character for each brand.

### Timeless Design

Matteo Thun's hotel projects are designed to endure. With over 30 years of expertise in high-end hospitality projects and luxury residences, Matteo Thun & Partners counts local individuality, consistency and timeless design as the company's most important characteristics. Rather than being 'Instagrammable', the design provides balance. The location, the Genius Loci, the spirit of the place and the soul of the brand, determines the outline of each architecture and interior concept.

#### Interdisciplinary

A deep understanding of the management of complex projects is of paramount importance to our team of architects, interior, product and graphic designers. Working with an interdisciplinary approach, the team seamlessly shifts from micro to macro, always with profound respect and a sensitive approach to the client's vision.

#### Cost engineering

Each specialised unit within the company is highly adept at flexible budgets and cost engineering. All architecture and interior design projects are the result of a dialogue between the client's expectations, the location, its residents and its culture. Keeping a project in line with expectations is of utmost importance.

#### Awards

Matteo Thun & Partners's work has been recognized with awards such as the European Hotel Design Award, European Hotel Design Award of the Year, Hospitality Design Awards, MIPIM Award, Europe's Leading New Hotel by World Travel Award, several Wallpaper\* Design Awards, Red Dot Awards, Good Design Awards and more.
