VIENNA | BAR CAMPARI | CASSINA

Dynamic and lively, with Futurist graphics by the artist Fortunato Depero designed in the 1920s, the Bar Campari in Vienna has been created by Matteo Thun with furnishings supplied by Cassina. The facility is organized on two levels with an elegant bar clad in wood, brass details and carefully studied lighting. The entire interior creates a vital, energetic atmosphere, starting with the tables and seating (with the red, white and black colors of the Italian brand), all the way to the wood floors with geometric designs and the mosaic wall with a motif by Depero. On the first floor, the Accademia is an ideal location for special events.
