## Gloster 2021: FRESCO

With "Fresco", Matteo Thun has designed an outdoor collection for Gloster that brings back the light elegance of Italian design from the 1960s.

11/8/2021

Light and airy, ideal for warm summer days: the outdoor collection "Fresco" by Gloster makes us dream of long hours of sunshine in the middle of November, which Matteo Thun underlines with a design reminiscent of the Italian elegance of the 1960s. The aluminium frame with white powder coating of the Dining Chair and Lounge Chair thus holds a wheat-coloured all-weather weave, which with its open structure ensures a comfortable seating feeling even in high temperatures. Meanwhile, you can set your iced drink down on the marbled ceramic tabletop of the matching Round Dining Table or Round Side Table. "Fresco was designed to evoke the spirit and timelessness of the sixties - to capture the ease and the elegance of terraces, piazzas and promenades of the aspirational destinations of the period." says Matteo Thun.
